# SCHEDULE OF COURSES FOR THE YEAR 2018

*Whatever your reason for training, Firstlincoln Technologies Training is tailored to suit you. We offer everything from one or two-day seminars, short courses to exceptional, in-depth diplomas that can give you a whole new career.*

## **Achieve your goals with the right training to suit your learning needs**

Personal development allows you to develop your skills and qualities to reach your career goals and aspirations. Maximise your potential by ensuring you maintain a clear development path.

If you're looking to progress your career, refresh your skills or simply want to learn something new, our courses, diplomas and seminars will help you gain valuable practical experience that is instantly transferable to the workplace.

Our portfolio covers Information Technology, Web Design, Business & Management, Software Development and many other areas.

## **Tailor-Made Courses**

Over the years, Firstlincoln has consolidated its relationships with numerous key clients by assisting them in delivering in-house and tailor-made training courses. Such customised training solutions not only give a cost benefit to the respective client, but also provide the added advantage of adapting the course to address their specific requirements.

The vast amount of expertise possessed by Firstlincoln's training consultants puts us in an ideal position to develop almost any course in the fields of information technology. In order to ensure that the client derives maximum benefit from such training, our experts work closely with the organisation to design a comprehensive package. Such packages include pre- and post-assessment of the capabilities, and more importantly the skills gaps of the attendees, to guarantee the appropriate training solutions are devised

## Firstlincoln Technologies Qualifications

We've come a long way over the last decade to become one of Nigeria's leading full service digital agency. Our unwavering commitment to being at the forefront of technology and innovation has earned us a reputation as the 'go-to' agency for projects where a high level of technical expertise is required. We provide bespoke technological solutions using the best state of the art technologies for training, content management systems, ecommerce, mobile applications, SEO, cloud applications and integrated solutions - so we're able to match the best technology to the needs of your business.

Our team are split into technology specific teams to ensure that each project and training gets the expertise and attention it needs, whilst we also have dedicated digital marketing and creative design teams. We also work directly with clients, providing full service digital solutions and collaborate with advertising, branding and creative agencies in need of a web development services. In addition, we provide support on large development projects and assist partner development agencies where a high-level of technical expertise is required.

Firstlincoln has built a nationwide consulting practice and provided services to many organizations from a variety of industries and several branches of the federal government.

In recognition of our achievements in the advancement of the Information Technology sector in Nigeria, Firstlincoln was nominated for the **FUTURE AWARD** as the "Best Use of Technology" in **2008 and 2011**. **Africa Communication Award 2012** as the designer of "The Most Innovative Product" and recently we were nominated for the **Nigeria Technology Awards** as the **best website designer of 2015**.

Firstlincoln's entire corporate mission is dedicated to the business of assisting clients in the training, design, implementation, and operation of business solutions that improve productivity and service delivery. Therefore, Information Technology related training and consultancy services are not secondary to other Firstlincoln consultancy services. It is the central focus of its corporate experience and expertise.
